Nairobi Kenya

SKILLS

- Soft Skills:Collaboration, Initiative, Accuracy, Critical Thinking
- Artificial Intelligence
- Core Expertise: Supervised Learning, Natural Language Processing (NLP), Recommendation Systems, Model Deployment
- Languages & Tools: Python, SQL, Pandas, Scikit-learn, TensorFlow, Streamlit, Flask, Git
- Other Tools: Power BI, Tableau, Jupyter Notebook, Google Colab

LANGUAGES

- Kiswahili
- English

PROFILE

Creative and detail-oriented Machine Learning & AI Developer with hands-on experience building impactful AI systems in fintech, health, and food recommendation. Currently working with Kujia Kenya to develop machine learning models that solve real-world problems. Strong foundation in Python, model deployment, and AI tooling. Passionate about ethical AI and empowering others through data solutions.

WORK EXPERIENCE

- Freelance (Kujia Kenya NGO)
Machine Learning and Artificial
Intelligence Developer

2025

 - Supported tech onboarding with AI-enhanced feedback mechanisms.
 - Collaborated on internal training datasets for AI learning models and chatbot assistants.
 - Developed intelligent systems to support Kujia’s mission of digital empowerment.
- Data Consultant-Processor Ai data and
Languages(Freelance (guru.com)

2024

 - Assisted in data preprocessing and verification, contributing to faster model development cycles and better prediction accuracy.
 - Collaborated closely with AI engineers to refine labeling guidelines, improve dataset quality, and ensure annotations aligned with project goals, which improved model performance by reducing errors caused by inconsistent data.
 - Annotated and labeled over 10,000 images and text samples with high accuracy, enabling the training of reliable supervised machine learning models.

EDUCATION&CERTIFICATION

KCA University, Nairobi, Kenya – Expected Graduation:
2025

- Online Certifications:
- Artificial Intelligence at Cousera
 - python for Data and Ai Development
